PUBLIC HEARING MONMOUTH COUNTY OPEN SPACE APPLICATION

Township Administrator Anthony Mercantante discussed the grant program and how the process works. Green Acres will require a change of use hearing next year.

Township Engineer Ted Maloney presented Stevenson Park Athletic Field Project Addresses Block 1012 Lot 31.01 and Block 1016 Lot 6

Township Engineer Ted Maloney discussed the multiphase approach of installation of athletic fields on open fields of current grass or crop fields in a non-wooded area. He discussed resurfacing of gravel roads to construct gravel parking areas. He explained that it is a good location for fields due to the ideal drainage, grading and access. The basic concept of this application for Phase I of two fields is subject to change.

He said there is no plan for lighting or sound systems and the fields would be natural grass. There will be no considerable tree disturbance except in Field A for road widening. He discussed the buffer zone (100 feet to the sideline to Shady Oaks). The park is approximately 160 acres and the property will use well water and ground water irrigation. He stated there is a tremendous demand for fields since field resting is necessary to maintain conditions.

PUBLIC COMMENTS

Chris Linze, Middletown resident and Coach, Board Member of Middletown Soccer Club (Monmouth United) which consists of more than 60 teams, 750 families, 1500 adults and 600-700 children. He explained the great level of volunteers in soccer and they are challenged by the quantity of fields. He discussed the need to find out of town fields to play games on. He stated the number one complaint of parents on surveys taken is field quality. He supports the construction of the fields.

Domenick Casera, Middletown Resident and Coach, discussed the lack of space. All volunteers are trying to keep kids to learn to do the right thing and keep them away from drugs, he said it's a lifelong lesson. He stated the fields that are existing are dirt not grass and the kids end up kicking dirt around. He said they have to rent fields in Hazlet due to lack of fields and the growing of athletic such as lacrosse and soccer.

Peter Cohen, 74 Cypress Neck Road, is a flag football volunteer and board member. He stated that he has been using Thompson Middle School field for 21 years and this year the reseeding and fertilizing of fields were unsafe for play and they were moved to Bayview School. He explained that lack of fields has resulted in a drop in registration from 550 kids down to 200. He is in support of the project.

Libby Polebue, West Front Street resident, stated it's a great case to use for fields but she is concerned about the volume of traffic. She went on to say how dangerous traffic is on West Front Street and the area around the park she refers to as dead man's curve and also the one lane bridge is not enough to handle the volume of traffic. She also mentioned two years ago a motorcyclist was killed. She questioned if the Township would address the speeding near the park on West Front Street. She also stated that there is no shoulder or sidewalks along that portion of West Front Street and if anything she would love to see sidewalks so she can walk her dog. She is not against the project but is stressing her traffic concerns. She said she has seen numerous motor vehicle accidents along West Front Street and how will that be addressed. She suggested a traffic study be performed before proceeding.

Mayor Settembrino responded that no lights or speakers are included in the plan. He also stated the bridge is two lanes.

Committeeman Perry commented that he lived off West Front Street and he understands her concern. He suggested looking into some type of notification system to alert drivers.

Township Administrator Anthony Mercantante understands the lack of sidewalks is a serious issue and is something we can look into as part of the concept plan.

Ray Jankowski, 7 Hopi Drive, Stated the permit fees are excessive and hopefully the fields will be used in order to rest the current fields and make them better.

Maryanne Kligman, Middletown resident, discussed the dangerous long winding road on that portion of West Front Street. She is not against the fields but the traffic issue needs to be addressed. She stated that use and the time of the property purchase was for passive recreation. She would also like the residents of Shady Oaks and Shadow Lake to be notified.

Township Administrator Anthony Mercantante responded this a future concept. Right now it is a Phase I plan with two fields and gravel parking. There will be future notices and a public hearing.

Michael DeCicco, 46 Alexander Drive, discussed the great beauty of the park system in Middletown and Monmouth County. He does not support the fields he said he is in favor of a mixed use of the property with its trees, flowers, fields and the lake. He discussed the lake and lack of water in the lake. He said there is no way to access the street and boats are being dangerously dropped in from Hubbard Avenue. He objects to the change

Workshop Meeting

of use to Green Acres for the property. Wells needed for Phase I are costly for irrigation. Last year's application was \$150,000 for a playground. This project will change the character of the property. He asked has an assessment study been done or published for the need for fields. He stated this is a potential sports complex with 9 fields, 340 parking spaces. The bridge in and out is too narrow. He stated there should be a study with more public input and he requested a smaller project.

Sean Byrnes, 880 West Front Street, stated he has no issue with the concerns of the volunteers of the sports leagues. He does agree with Mr. DeCiccio and he is also familiar with the property. The property is very unique and undisturbed. He expects traffic issues and left turn issues. This is a narrow roadway and a traffic study should be performed. The bridge is too narrow. He was also concerned that the information was not accessible to the public before the meeting since he only found out 3 to 4 days ago through social media. The plan was only put up a couple of days ago over a holiday weekend.

Mayor Settembrino responded this is only a Phase I Concept Plan for two fields.

Deputy Mayor Fiore responded there was a Recreation Master Plan study done ten years ago. There have been multiple organizations and leagues that now exist since that plan. This is not a new challenge trying to other properties and none of the properties can accommodate especially with open space funds. Deputy Mayor Fiore also stated we work with the Board of Education to share fields but there is not much available in Middletown. This has been a challenge over time and with even more athletics now. This property has not been available until recently when Mr. Stevenson who was residing on the property passed away.

Diane Fisler, West Front Street, does not believe this is the best place for it. She would like to see more discussion before anything is done. She also said that irrigation and wells will damage the lake.

Leo Christofili, Shady Oaks, discussed the black and yellow traffic signs are advisory and will not stop speeding that is a matter of police enforcement. He said he hasn't seen a patrol car in seven years. He suggested a flashing light should be installed to slow traffic. He said he lives within 250 feet of the property which is 160 acres and the only access is the narrow two lane bridge. He also inquired as to what the maintenance expense is going to be budgeted and, what the overall expense in the future for wells will be. The problems that exist need to be addressed. He also discussed the tree removal for access road but still there is only one entrance.

Township Administrator Anthony Mercantante responded that there is an emergency access road in Shady Oaks to the Stevenson property.

Upon motion by Mayor Settembrino, seconded by Deputy Mayor Fiore motion carried to allow application to be made to MCOS grant.

I. INTRODUCTION

A. Redevelopment Process

The following Redevelopment Plan addresses the need for the redevelopment of the Township Municipal Complex, Block 815, Lots 1.01, 6 and 7 (“Redevelopment Area”) as identified on the Township of Middletown’s Official Tax Maps.

On April 3, 2017, the Township Committee adopted Resolution 17-133 requesting that the Planning Board undertake a preliminary investigation of the above-referenced properties to determine whether the Redevelopment Area qualifies as an area in need of redevelopment pursuant to NJSA 40A: 12A-1 et. seq. of the Local Redevelopment and Housing Law (“LRHL”).

On June 7, 2017, the Planning Board held a properly noticed public hearing to review the study, evidence and testimony in support of the findings of whether the Redevelopment Area satisfies the requirements of the LRHL to be considered an area in need of redevelopment. The Planning Board concluded that the Redevelopment Area satisfies the requirements of the LRHL.

On June 19, 2017, the Township Committee adopted Resolution 17-184 designating the Study Area as an area in need of redevelopment for non-condemnation purposes pursuant to N.J.S.A. 40A:12A-6.

This Redevelopment Plan for the Township of Middletown Municipal Complex (“Redevelopment Plan”) has been prepared in accordance with N.J.S.A. 40A:12A-7 of the LRHL.

B. Description of the Redevelopment Area

The Redevelopment Area is bound by State Highway 35, Kings Highway, and Penelope Lane. Lot 1.01 is located at the intersection of State Highway 35 and Kings Highway with its westerly property line fronting along Penelope Lane, while Lots 6 and 7, located to the west of Lot 1.01, have frontage along Penelope Lane.

Table 1: Tax Block and Lots for the Redevelopment Area	
Block	Lot
815	1.01
815	6
815	7

The Redevelopment area contains a total area of approximately 9.75 acres. Lot 1.01 contains an area of approximately 8.65 acres, while Lot 6 and Lot 7 contain an area of approximately 33,075 square feet and 28,350 square feet, respectively. Block 815, Lot 1.01 contains a total of four buildings. These buildings house the Township’s administration building, police department, department of building construction, and department of finance. Block 815, Lot 6 contains a dwelling unit which currently houses the Department of Planning and Community Development. Block 815, Lot 7 contains the Middletown Emergency Medical Services (MEMS) Department.

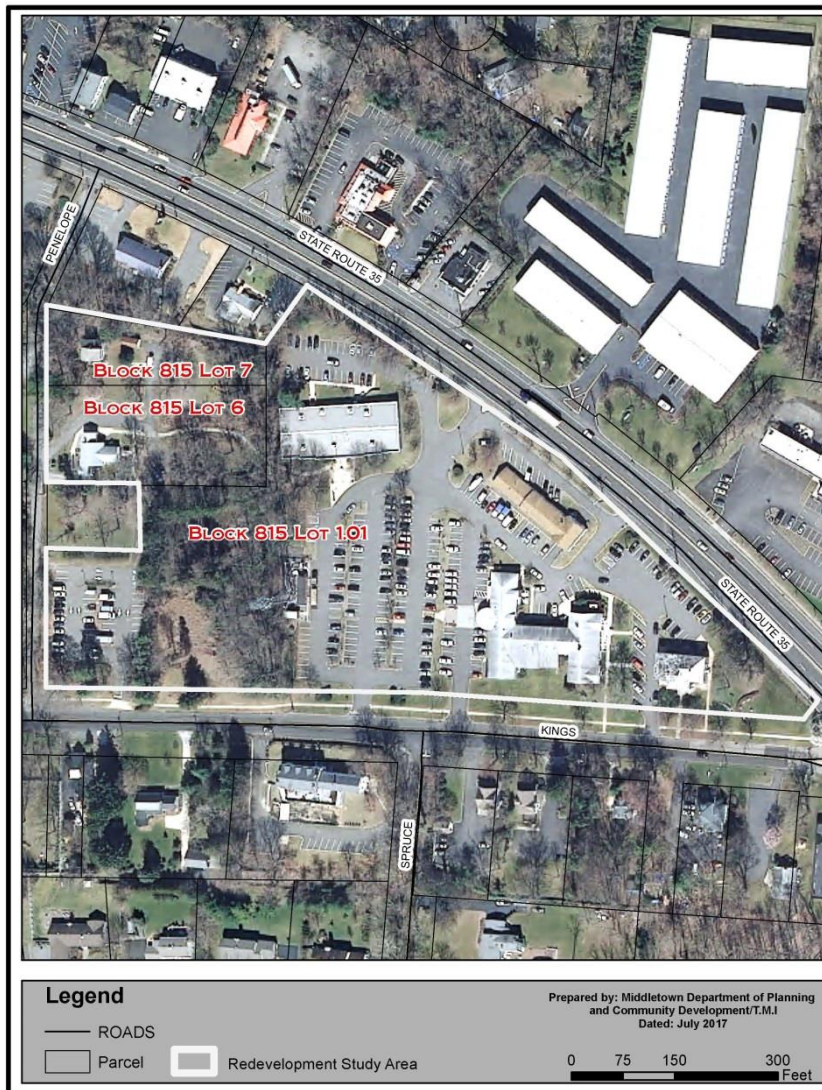

Figure 1: Aerial Map of the Township Municipal Complex Redevelopment Properties

The Redevelopment Area is surrounded by a mix of commercial, office, and residential uses. Properties directly across State Highway 35, to the northeast of the Redevelopment Area and fronting along the north bound lane of Route 35, contain a strip mall, a self-storage facility, and a car rental facility. The property to the northwest of Lot 1.01, fronting along the southbound lane of Route 35, contains the AT&T retail store and a medical office. The medical office shares its southerly property line with Block 825, Lot 7. The properties along Kings Highway contain office and residential uses, while properties abutting the Redevelopment Area along Penelope Lane contain residential uses.

II. STATUTORY REQUIREMENTS

This Redevelopment Plan is written pursuant to Section 7 of the LRHL (N.J.S.A. 40A:12A-7.a.), which provides that “no redevelopment project shall be undertaken or carried out except in accordance with a Redevelopment Plan adopted by ordinances of the municipal governing body.” Pursuant to the requirements of the LRHL, the Redevelopment Plan shall include an outline for the planning, development, redevelopment, or rehabilitation of the redevelopment area sufficient to indicate:

- 1) Its relationship to definite local objectives as to appropriate land uses, density of population, and improved traffic and public transportation, public utilities, recreational and community facilities, and other public improvements.
- 2) Proposed land uses and building requirements in the redevelopment area.
- 3) Adequate provision for the temporary and permanent relocation, as necessary, of residents in the redevelopment area, including an estimate of the extent to which decent, safe, and sanitary dwelling units affordable to displaced residents will be available to them in the existing local housing market.
- 4) An identification of any property within the redevelopment area that the municipality envisions acquiring, in accordance with the Redevelopment Plan.
- 5) Any significant relationship of the Redevelopment Plan to: (a) the Master Plans of contiguous municipalities; (b) the Master Plan of the county in which the municipality is located; and (c) the State Development and Redevelopment Plan (“SDRP”), adopted pursuant to the “State Planning Act,” P.L. 1985, c. 398 (N.J.S.A.52:18A-196 et al.).

This Redevelopment Plan meets these statutory requirements as evidenced by the following sections of the plan.

III. PLAN RELATIONSHIP TO ZONING

The B-2 Zone District stipulates a minimum lot area of 20,000 square feet, while the B-3 Zone District stipulates a minimum lot area of three (3) acres. Block 815, Lots 6 and 7 are located within the B-2 Zone District. These zone districts permit a variety of non-residential uses, including but not limited to, banks, offices, animal hospitals, medical offices, personal service uses such as beauty shops, laundry, and other retail uses such as bakeries, grocery stores, etc. Conditional uses in the B-2 and B-3 Zone include fast food restaurants, schools, golf courses, cemeteries, places of worship, commercial communication antenna or tower, public utility office or substation, telephone communication center, and television communication center. Additionally the B-3 Zone District conditionally permits uses such as hospitals, massage parlors, arcades, and adult entertainment centers.

The entirety of lots 6 and 7, and the portion of Lot 1.01 fronting on Penelope Lane is located within the Middletown Village Historic District. This is one (1) of the five historic districts that have been officially designated by ordinance and is shown on the Township Zoning Map. Furthermore, the Middletown Village Historic District (ID#2026) has been listed on the New Jersey and National Registers of Historic Places.

The properties to the north, northeast, northwest and south of the Study Area and fronting along State Highway 35 are located in the B-3 Zone District. The properties to the west and fronting along Penelope Lane are located in the R-22 Residential Zone District. The properties to the south and fronting along Kings Highway are located in the R-O Residence and Office Zone District.

The entirety of lots 6 and 7, and the portion of Lot 1.01 fronting on Penelope Lane is located within the Middletown Village Historic District. This is one (1) of the five historic districts that have been officially designated by ordinance and is shown on the Township Zoning Map. Furthermore, the Middletown Village Historic District (ID#2026) has been listed on the New Jersey and National Registers of Historic Places.

IV. REDEVELOPMENT PLAN VISION, GOALS AND OBJECTIVES

A. Vision Statement

The vision of the Municipal Complex Redevelopment Plan is to encourage the environmental remediation, rehabilitation, and development of the Township of Middletown's Municipal Complex. The existing municipal services will be replaced with a new improved facility and may potentially be undertaken under a public-private partnership.

B. Goals and Objectives

The Municipal Complex Redevelopment Plan sets forth the following goals and objectives:

- 1) Advance the goals and objectives of the Township of Middletown's 2004 Master Plan and the subsequent Reexamination Reports.

- 4) To provide sufficient off-street parking for all the municipal offices and facilities on the site.
- 5) To reduce the impact of development on the environment through encouraging the implementation of green infrastructure techniques. Incorporate green building technologies into the site improvements and the building design to the maximum extent practicable.

6) To take into consideration the existing neighborhood's established historical character, while incorporating a modern and innovative development that will complement and align with the established neighborhood.

2) The Redevelopment plan envisions demolishing the existing structures.

3) The Redevelopment Area consists of three (3) individual lots. These lots may be merged or further subdivided subject to Township Committee authorization.

4) The Redevelopment Plan is illustrated on a concept prepared by Arcari + Iovino Architects PC, identified and included within Section VI of this Redevelopment Plan. These include a conceptual site plan, floor plans, elevations, and building renderings. This iteration is intended to provide a general vision for the redevelopment project. It is understood that these

renderings are representative and that the final design may change based on proposals and concepts received.

5) It is envisioned that the existing municipal facilities and all business operations performed on site will continue to function during the construction of the new municipal building. An unspecified number of parking spaces will be temporarily eliminated and/or relocated and alternate parking arrangements should be provided on other areas of the site to accommodate the needs and to minimize any disruptions to the municipal operations during the construction phase.

6) The use of green building technologies is encouraged to be incorporated into all aspects of the project design where practicable.

7) All new electric, telephone, cable, gas, and other utility services lines servicing the buildings shall be installed underground.

D. General Design Guidelines

These general design guidelines shall be applied with the relevant bulk and use standards defined in this Redevelopment Plan. They are intended to reinforce the physical and spatial characteristics of the Middletown Municipal Complex. Exceptions may be granted at the discretion of the Township Committee.

1. Design Consideration and Standards

a) Buildings shall be oriented towards the street so as to contribute to provide form and function to the streetscape.

b) Design considerations for the municipal building:

- 1) The main building entry shall be prominent and easily identifiable.

- 2) The base of all buildings shall meet the pedestrian level in a human scale and manner. The height of the base must relate to the building's architecture and design and must be proportional with the overall building height.
- 3) Upper level facades shall be articulated in order to provide architectural interest. Facades shall not be left blank.
- 4) It is recommended that facades of all buildings shall be developed and designed using high quality materials such as masonry (standard or Norman brick), pre-cast stone or concrete and brick panels, etc. Stucco may be used as an accent.
- c) To the maximum extent practicable, non-municipal buildings must use materials and architectural styles that complement the municipal building and give an appearance of being part of one complex.
- d) Part of the Redevelopment Area, along Penelope Lane, is located in the Middletown Village Historic District, which is listed on both the State and National Register of Historic Places. As such, the architectural and site plans should be consistent with the surrounding character of the District relative to the building's architectural elements, to the extent possible. Therefore, it is recommended that the building design reference traditional design features such as lintels, cupolas, cornices, pilasters, etc. These architectural elements may be used in a contemporary manner provided that the building as a whole presents a cohesive appearance and the quality of the building materials is maintained.
- e) Building designs may utilize various types of materials and material changes for façade articulation; the intent of this is to create interesting and varied building facades such that the building facades do not read as continuous slabs along the streetscape.

- f) All mechanical equipment, generators, HVAC equipment and similar equipment shall be acoustically buffered such that any noise generated by the equipment shall be within the applicable residential sound standards as defined by the State of New Jersey.
- g) Rooftop mechanical units, vents, and flues shall be screened using parapets, or pitched roof forms, and located, to the extent practicable, centrally on the building roof with screening materials constructed of the same or similar material as the building.
- h) Mechanical equipment at ground level shall be screened from the public view.

2. Signage

Signage should be integrated with the overall architectural design of the building. One monument sign identifying the Municipal Complex along the State Highway 35 and Kings Highway intersection is recommended to identify the destination. Another smaller monument sign may be installed along Kings Highway. Within the municipal complex, wayfinding or directional signs may be installed to display and help visitors find specified parking and individual locations for the different uses on the site. Such signs shall not exceed two square feet per identification and letter height of six inches, with a total area not exceeding ten square feet in area. The structure to which the signs are attached shall not exceed 12 feet in height.

Apart from the municipal complex and its ancillary uses, should there be any other use on the site, pursuant to the public-private partnership, then one freestanding sign, not exceeding 50 square feet in area, 25 feet in height and at a setback of 25% of building setback, for the uses; and one façade sign not to exceed 10% of the front wall area is permitted for such a use in the Redevelopment Area.

Signage standards stipulated within Section 540-635 of the Planning and Development Regulations that are not specific to a zone district apply to the Redevelopment Area. In event of a conflict, the Redevelopment Plan supersedes any conflicting requirement stipulated within Section 540-635. The redeveloper will prepare a comprehensive sign plan as part of the site plan process that will identify, locate, and illustrate each proposed sign within the project.

The Township Committee may authorize a de minimis design waiver from the signage requirement without the need for amending the Redevelopment Plan as described under Section VIII.C.10 of this Redevelopment Plan.

3. Landscape treatments

A developer shall be required to submit a landscape plan showing a variety of native plant material to enhance the character of the site, including foundation plantings, and perimeter trees and shrubs. The landscape plan shall be designed in accordance with the following guiding principles:

- a) Landscaping shall accent and complement buildings.
- b) Yard areas and open spaces of buildings shall contain, to the maximum extent practicable, the equivalent of one shade or ornament tree for each 1,500 square feet of yard area, not including the areas devoted to parking.
- c) Street trees shall be located at 30 feet on center, allowing plus or minus for driveways, walkways or other obstructions.
- d) Areas that do not contain parking, driveways, walkways shall be landscaped using trees, shrubs, grass or other plants of suitable size and variety.

- e) Bases of trees and other landscaped areas shall include suitable ground cover so as to discourage the growth of weeds.

4. Lighting

The following standards shall apply for lighting within the redevelopment area:

- a) Adequate lighting should be provided for security and identification without allowing light to trespass onto adjacent sites.
- b) Exterior lighting, including interior lighting for exterior identification signs, shall be LED or any other energy saving technology available at the time of construction, depending upon the availability of suitable architectural lighting.
- c) To the maximum extent practicable, this Redevelopment Plan recommends decorative light fixtures in lieu of standard shoe box fixture. Following are few examples illustrating different decorative lighting fixtures as a reference.

- d) Lighting shall be in compliance with the applicable sections of Chapter 540, Planning and Development Regulations. The Township Committee may authorize de minimis design waivers from the lighting requirement without the need for amending the Redevelopment Plan as described under Section VIII.C.10 of this Redevelopment Plan.

5. Green Design and Elements

The use of green building technologies is strongly encouraged to be incorporated into all aspects of the project design. This is in accordance with the Township Committee's commitment to making Middletown a sustainable community. In fact, the Township Committee, pursuant to Resolution 10-215, has pledged to incorporate the principles of green design and renewable energy generation into municipal buildings to the extent feasible. The following green design and elements have been incorporated within this Redevelopment Plan:

- a) The existing municipal complex site is being redeveloped; however, one existing building will continue to function until the completion of construction of the new municipal complex.
- b) Construction of a Stormwater management system in accordance with the NJ Department of Environmental Protection (DEP) Stormwater regulations.
- c) The Redevelopment Plan recommends, to the extent practicable, incorporating raingardens, bioswale tree lawns and pervious pavements to maximize absorption of storm water.
- d) Outdoor water use reduction and indoor water use reduction (low flush fixtures, etc.).
- e) High efficiency HVAC systems.
- f) Occupancy sensors for room lighting.
- g) LED lighting fixtures and other high efficiency lighting.
- h) Storage and collection of recyclables.
- i) Use of local raw materials for construction.
- j) Indoor air quality to meet Code.
- k) Thermal comfort and control systems.
- l) Quality indoor lighting.
- m) Use of daylight to maximum extent practicable.
- n) Incorporation of shade trees within the Redevelopment Area and use of native plant species.

VII. PLAN CONSISTENCY REVIEW

The following section identifies the relationship of this Redevelopment Plan to a number of other Plans and local, regional and State goals and objectives in accordance with NJSA 40A:12A-1 et seq.

A. Township of Middletown Master Plan

1. 2004 Master Plan

The Township's 2004 Master Plan sets forth a statement of objectives, principles, assumptions, policies and standards, and includes a Land Use Plan Element along with other plan elements such as Circulation Element; Utility Service Element; Community Facilities Element; Open Space, Recreation and Conservation Plan Element; Historic Preservation Element; Recycling Element; and the Housing Element, which was replaced by the Amended Housing Element and Fair Share Plan in December 2008.

The following section identifies the objectives, principles, assumptions, policies and standards that are relevant to this Redevelopment Plan:

Objectives

- 1) To encourage municipal actions which will guide the long range appropriate use, development and preservation of lands within the Township in a manner designed and intended to promote the public health, safety, morals, and general welfare of present and future residents.
- 2) To secure safety of the community, to the extent possible from fire, flood, panic and other natural and manmade disasters.
- 3) To provide adequate light, air, and open space.

- 4) To ensure that development with the Township does not conflict with the development and general welfare of neighboring municipalities, the County, the region, and the State as a whole.
- 5) To encourage the appropriate and efficient expenditure of public funds by coordinating public and private investment and development within a framework of land use and development principles and policies.
- 6) To provide sufficient space in appropriate locations within the Township for agricultural, residential, business, office, industrial, mixed use, and public and quasi-public uses in a manner which will provide for balanced Township growth and development.
- 7) To promote a desirable visual environment through creative development techniques with respect to environmental assets and constraints of the overall Township and of individual development sites.

Principles

- 1) Locating public, commercial, industrial, professional office and agricultural uses at sites and in locations which are suitable for their use environmentally, economically, and geographically, and are compatible with existing uses, public facilities, roadways, and natural features.
- 2) Continued recognition of the Township's unique and historic pattern of neighborhoods and villages. Efforts have been ongoing to enhance, redevelop and improve these areas throughout the Township. Such endeavors should be continued.

Policies

- 1) Land development should be designed to protect and enhance the environmental quality of the Township and preserve and protect valuable open spaces and natural resources.
- 2) The Township will consider and evaluate innovative development proposals which would enhance and protect environmental features, minimize energy usage and encourage development densities consistent with existing patterns of development.

The Community Facilities Plan Element of the 2004 Master Plan identifies the principal community facilities within the Township, both public and quasi-public. This element provides an overview of the municipal facilities that existed in 2004. Furthermore, the Master Plan recognizes that “within the next five (5) years the Township should consider consolidation into a single municipal complex. While recent improvements to facilities and relocation of departments has improved governmental efficiency, the fact that the Township must maintain multiple buildings and grounds results in added costs for maintenance and upkeep. A single Municipal complex will be more efficient and convenient for the public who will be able to conduct virtually all of their business as one location. The existing facilities are also extremely inefficient in terms of energy consumption.” The Master Plan was adopted in October 2004 and it is almost 13 years since then.

2. 2014 Master Plan Reexamination Report

The following recommendations from the 2014 Master Plan Reexamination Report are relevant to this Redevelopment Plan:

- Modifications to circulation patterns at Penelope Lane are critical considering the increased traffic demands to be placed on this narrow roadway by office development currently under construction.
- Consideration should be given to converting the northerly 200' +/- section of Penelope Lane to a one-way roadway heading northbound. Restricting right turn movements from Highway 35 should also be considered by altering the intersection geometry. Overall roadway conditions are in need of rehabilitation.

3. Middletown Village Historic District Survey Report

The Middletown Village Historic District survey report was prepared in 1990 by the Middletown Township's Landmarks Commission and Historic Preservation consultant Gail Hunton for the purpose of re-designating the historic district under Township Ordinance #2017. An inventory of 99 properties was identified to substantiate the significance of the district as a whole by listing the architectural and historical documentation of its individual components. Properties were classified into three categories:

- Key: Any building, structure, sites or objects which, due to their significance, would individually qualify for landmark status.
- Contributing: Any buildings, structures, sites or objects which are integral components of the historic district either because they date from a time period for which the district is significant or because they represent an architectural type, period, or method of construction for which the district is significant.
- Non-contributing: Any buildings, structures, sites or objects which are not integral components of the historic district either because they neither date from a time period for which the district is significant nor

represent an architectural type, period, or method of construction for which the district is significant.

The report further clarified the contributing structures within the historic district by stating the following:

Although village origins date from the late 17th century and a number of “Key” 18th century structures and sites distinguish the district, the existing physical and architectural characteristics of Middletown Village are predominantly 19th century. Consequently, all 19th century buildings are classified as “Contributing” unless they have lost integrity through radical alteration. In addition, the Middletown Village Historic District is characterized by a significant number of structures dating from the early 20th century. Therefore those buildings that over fifty years old (before 1940) and exhibit compatible scale, form, and materials with the overall district, area also classified as “Contributing.”

The house on Block 815, Lot 7 (Old Block 56, Lot 9), identified in the report as “Morford House,” was classified in the report as “Contributing.” However the report notes that the structure was substantially altered in the 20th Century, with the rebuilding of the foundation, fenestration changes, and vinyl siding covering the wood siding and trim. This currently houses the Emergency Medical Services.

The structure on Block 815, Lot 6 (Old Block 56, Lot 9.01) was classified in the report as “Non Contributing.” This structure, a one-story mid-20th century ranch with wood siding, currently houses the Department of Planning and Community Development.

B. Relationship to the adjacent municipalities

Middletown Township is located in Monmouth County and is bordered by the municipalities of Keansburg Borough, Atlantic Highlands Borough, Highlands Borough, Red Bank Borough, Tinton

Falls, Colts Neck Township, Holmdel Township, and Hazlet Townships. However, the Redevelopment Area that is the subject of this Redevelopment Plan is located in the central portion of the municipality. Due to the isolated nature of the Redevelopment Area, there are no impacts expected on adjacent municipalities.

C. Monmouth County Master Plan

Monmouth County’s Master Plan was adopted in October 2016. The following are the goals and objectives relevant to this Redevelopment Plan:

Master Plan Goal #3 is to promote beneficial development and redevelopment that continues to support Monmouth County as a highly desirable place to live, work, play, and stay. The purpose of this goal is to assist municipalities in determining the best use of increasingly scarce undeveloped land resources and to help identify opportunities for the redevelopment of other areas in ways that will best meet the demands of the evolving marketplace and needs of the community. The purpose is also to assist those municipalities that desire to maintain and/or enhance their community’s current character as their highest local priority.

In that the following are few of the objectives that are relevant to this:

- To encourage the redevelopment and revitalization of highway commercial corridors that incorporate multi-purpose uses, higher design standards, are located outside Special Flood Hazard Areas (“SFHA”), and improve circulation both on and offsite.
- Promote the redevelopment or reuse of environmentally degraded places such as brownfields and greyfield sites into safe, new uses and public amenities that promote healthy community design.

- Promote the retention, improvement, maintenance, and upgrading and/or adaptive reuse of existing governmental and institutional facilities.

D. State Development and Redevelopment Plan

On March 1, 2001, the State Planning Commission (“SPC”) adopted the State Development and Redevelopment Plan (“SDRP”). The SDRP establishes a proposed statewide planning framework that is designed to maintain and revitalize existing cities and towns and organize new growth in “center” – compact, mixed-use communities that provide a variety of choices in housing, employment opportunities, entertainment, services, transportation, and social interaction.

The Redevelopment Area is located entirely within the Metropolitan Planning Area 1 (PA-1). According to the SDRP, the intent of the Metropolitan Planning Area 1 is to:

- Provide for much of the state’s future development;
- Revitalize cities and towns;
- Promote growth in compact forms;
- Stabilize older suburbs;
- Redesign areas of sprawl; and
- Protect the character of existing stable communities.

The Policy Objectives governing the Metropolitan Planning Area 1 (PA-1) include the following:

- Land Use: Promote redevelopment and development in Cores and neighborhoods of Centers and in Nodes that have been identified through cooperative regional planning efforts.
- Housing: Provide a full range of housing choices through redevelopment.
- Economic Development: Promote economic development by encouraging strategic land assembly, site preparation and infill development, [and] public-private partnerships.
- Natural Resource Conservation: Reclaim environmentally damaged sites and mitigate future negative impacts.
- Public Facilities and Services: Complete, repair, or replace existing infrastructure systems to eliminate deficiencies and provide capacity for sustainable development and redevelopment in the region.

VIII. GENERAL PROVISIONS

A. Role of the Township of Middletown

In order to implement the Redevelopment Plan, the Township Committee, acting as a Redevelopment Agency, shall designate and enter into a contract with a Redeveloper for any construction or other work forming a part of this Redevelopment Plan (N.J.S.A. 40A:12A-4(c)) as per the guidelines mentioned within this section of the Redevelopment Plan.

1. Redeveloper Selection

The following procedural standards shall help guide the selection of the prospective redeveloper. The Township Committee may, at any time, proactively solicit potential redevelopers by utilizing appropriate methods of advertisement and other forms of communication, or may, at its discretion entertain unsolicited proposal(s) from a prospective redeveloper(s) for the project development. The Township Committee may, at its discretion, choose to enter into a public-private partnership wherein a certain portion of the Redevelopment Area can be developed by the Redeveloper to contain permitted uses noted within the Redevelopment Plan, in order to offset the cost of building the municipal complex. This would include, but is not limited to, a pad site to contain office, retail or similar uses that are deemed compatible/complementary to the municipal complex by the Township Committee. The Township Committee reserves the right to select the redeveloper(s) in all areas governed by this Redevelopment Plan.
